Country: United States of America

Course and Result

CompTIA A+ 1000 - Part 1

This course provides the IT skills needed to become a PC service specialist. The 'CompTIA A+' qualification was established by the Computing Technology Industry Association in the United States but has become a worldwide standard that assures people of your competence. We explain what is required to maintain safety for you and the computer components you work with. We also examine the system components and establish their roles. We
